Hiring Manager

Em Philippines

Dear Hiring Manager,

I am writing to apply for internship or entry-level opportunities in your company related to Computer Science, Information Technology, software development, or programming. I am currently a Bachelor of Science in Computer Science student at Cavite State University – Carmona Campus and would like to gain experience and improve my skills in the industry.

As a student, I have worked on different projects that helped me learn about system development, programming, documentation, and teamwork. Some of these projects include **PharmaSync**, a Warehouse Management System; **YPADS Information System**; and **Before the Last Page**, a game development project. Through these projects, I gained experience using Java, Python, JavaScript, PHP, HTML/CSS, MySQL, Figma, and RPG Maker MV/MZ.

I have also completed online courses and certifications through Cisco Networking Academy. In addition, I was recognized as a **With Honors** and **With High Honors** student and became a recipient of the **OWWA Scholarship Program**. These achievements helped me develop discipline, responsibility, and a strong desire to learn.

I am hardworking, willing to learn, and able to work well with others. I am excited to gain new knowledge, improve my technical skills, and contribute to your company.

Thank you for taking the time to review my application. I would be grateful for the opportunity to discuss my qualifications further. I look forward to hearing from you.

Sincerely,

FRANCINE MAE C. JAMILA
